A Sindhi in Los Angeles protesting against the damming of River Indus. USA paid 20 B\$ aid to Pakistan from 2001-09 despite Pakistan's continued human rights violations and ambiguity towards the international terrorism.

Challenges facing Sindh

- Exploitation of natural resources – oil, gas and coal.
- Theft of water from River Indus and building of mega dams and illegal canals at upper riparian resulting in deprivation of Sindh from irrigation water and destruction of the Indus Delta.
- Unfair allocation of funds to Sindh, which contributes 69% to federal revenue and gets only 11% back.
- Forced Islamization and denial of indigenous cultures and secular Sufi traditions.
- Direct or indirect military rule or 'governor rule' throughout 63 years.
- Manipulation of population census figures reducing Sindh's indigenous population into minority
- The construction in Sindh of the largest military cantonments in Asia.
- The spending of more than 75% of the total budget on defense and defense related debt servicing.
